

Networking

We keep your network up and your costs down.™

At CXtec, we understand that your job is evaluated largely on your ability to do two things well – minimize downtime and keep costs low. That's exactly what we've been doing for our customers for over 30 years.

Our equal2new® networking hardware sets the standard for refurbished equipment, but is priced up to 90% off list. That cost savings and reliability mean you can reinvest more funding and resources in areas of your organization you feel would best benefit your business objectives.

Need more?

- **equal2new is a completely new product category –** With one of the toughest refurbishing processes in the business, equal2new has a 99.51% out-of-the-box reliability rating with savings of up to 90% off new. We're so confident in the quality of our equal2new voice and networking equipment that we back it with a lifetime warranty with first full year advance replacement! Now that's unrivaled peace of mind!
- **We cover all the brands you trust –** Our on-hand inventory is huge with over 250,000 products in stock, and we're the largest technology remarketer in the industry.
- **We pay top dollar for your unwanted networking equipment –** We offer cash, credit or trade towards newer equipment.
- **If there isn't a value to your surplus equipment –** We can help you recycle it safely, securely and in an environmentally-friendly way.
- **Should you need to replace equipment, we can get you what you need next day with RapidCare®, our advance hardware replacement program –** It costs up to 50% less than OEM maintenance programs.
- **Even if the OEM isn't around anymore, chances are CXtec can help –** Not only do we have legacy equipment, we have the people that can support it.
- **You can trust us, and your boss will like us –** We've been doing this for over 30 years and have a proven track record of quality and cost savings for our customers.
- **You'll get great customer care –** Take a minute or two to talk with one of our team members and you'll see the difference immediately.

There is only one CXtec.

Since 1978, we've been doing things a little differently for our customers. Whether it's pioneering new product categories like equal2new®, developing innovations like the CABLExpress® Skinny-Trunk® Solution, creating new ways to maximize the value of unwanted IT assets or providing a comprehensive offering of technology products, we've always done it with our customers in mind – helping them keep their networks up and costs down.
