

CXtec ships its 500,000th equal2new networking item

SYRACUSE — CXtec, a global provider of new and certified pre-owned computer networking and technology equipment has announced the shipment of its 500,000th equal2new item, and says that 75 million networking and cabling products have been shipped.

The company states that CXtec provides a lifetime warranty that provides substantial long-term savings and guaranteed free replacement or refund for the life of the products.

CXtec is ranked 204 on the VARBusiness 2005 list of North America's Top 500 Technology Integrators. Its offerings include: voice and data networking and testing equipment, mainframe data-center products, computer cables and connectors, wiring systems, and storage components.
