

Just another way we keep your network up and your costs down.

At CXtec, we understand that your job is evaluated largely on your ability to do two things well – minimize downtime and keep costs low. That's why we offer our RapidCare® maintenance program.

Here's the deal. If you experience equipment failure, RapidCare will keep your network up with next-business-day advance hardware replacement. And we keep your costs down by offering RapidCare at up to 50% less than OEM maintenance programs. With us, there are no hidden costs, and we throw in free shipping on inbound and outbound product.

Need more?

- **We cover all the brands you trust** – Our on-hand inventory is huge with over 250,000 products in stock, and we're the largest technology remarketer in the industry.
- **We even support older, legacy equipment** – Not only do we have the products – we have the people that can support them.
- **Free shipping** – We guarantee next-business-day delivery – and shipping is free on both in-bound and out-bound products.
- **You can trust us, and your boss will like us** – We've been doing this for over 30 years and have a proven track record of quality and cost savings for our customers.
- **We deliver great customer care** – Take a minute or two to talk with one of our team members and you'll see the difference immediately.

There is only one CXtec.

Since 1978, we've been doing things a little differently for our customers. Whether it's pioneering new product categories like equal2new®, developing innovations like the CABLExpress® Skinny-Trunk® Solution, creating new ways to maximize the value of unwanted IT assets or providing a comprehensive offering of technology products, we've always done it with our customers in mind – helping them keep their networks up and costs down.
