

Redefine IT Strategy™

Let's rethink how you **build, maintain, support** and **upgrade** your technology infrastructure...

Complete IT Life Cycle Management

Our commitment to creating exceptional value for you at every stage of your technology investment.

No matter where you join us on the journey, with CXtec you can...

- **Lower hardware costs:** Sell back your used assets and invest in blended solutions of new and pre-owned network, voice, server and storage hardware.
- **Reduce your support costs:** Lessen your dependence on higher-priced OEM support and customize a solution that fits your needs.
- **Deliver quality and reliability:** Get pre-owned hardware backed by an unrivaled warranty, a 99.5% reliability rating, and the world's largest secondary hardware provider.
- **Extend the useful life of your technology:** Maintain your investment longer and upgrade at a pace that makes sense for you.
- **Save budget money for other business and profit-driving investments:** Use the capital you save on your technology to create competitive advantages in other areas of your organization.
- **Focus your team on the most important initiatives:** Maximize your internal resources and facilitate easier projects, from install to retirement.

Redefine The IT Life Cycle

The goal is to discover creative ways for you to recover value at every step of your journey – without sacrificing quality or your peace of mind.

Hardware

Blended solutions of new and pre-owned hardware put you in full control of your infrastructure.

As North America's largest secondary market hardware provider, CXtec empowers you with choices of new hardware or our own brand of certified pre-owned equipment – equal2new®.

CABLExpress®

To further maximize your investment, we also provide our CABLExpress® brand of high-performance data center cabling and hardware. You ensure your hardware always performs to expectations with CXtec.

- Lifetime warranty
- 99.51% reliability rating
- 40%-70% off list
- Extensive inventory

Services

Free up your team's time to focus on more critical, business-driving initiatives. We help you configure, install, set up, and support your environment.

Our team has a wide vision of best practices – we help organizations across North America and around the globe. Facilitate smooth data center transitions from physical to virtual infrastructure, and migrations to public or private cloud.

- MindSafe™ data sanitization
- Staging and configuration
- Installation/De-Installation

Maintenance

An investment in third-party maintenance (TPM) is an investment in your own independence.

Free yourself from expensive OEM support plans, and get a solution that best fits your needs. CXtec's RapidCare® TPM offering is the flexible, customizable solution to help right-size your support.

- 50-60% less than OEM support offerings
- 8x5xNBD
- 8x5x4
- 24x7x4

IT Asset Disposition

Our global IT asset disposition (ITAD) services cover everywhere from Omaha to Seoul – and all points between.

CXtec can handle any project, at any scale, worldwide. We offer cash or credit on account for your used gear – and no one pays more.

- Safe and secure
- Maximize value
- Data wiping and destruction
- Environmental responsibility
